ADVANCED DRIVER ASSISTANCE SYSTEMS		Sportline	Wolfsburg	Execline
<u>Area View</u>				
<i>Cameras with wide-angle lenses mounted in the front, rear, and exterior side mirrors work in tangent to simulate a real-time, top-down aerial view of your vehicle in the cockpit. The system offers a variety of perspectives and views to assist the driver. This allows for better situational awareness to assist while maneuvering in tight spaces, off-road, or while coupling a trailer.</i>		-	-	S
<u>Front Assist: Autonomous Emergency Braking</u>				
<i>Radar sensor fitted to the front of the vehicle alerts the driver to a possible collision. If the driver overlooks an obstacle, the City Emergency Brake can automatically brake to either mitigate or avoid a collision. The automatic braking functions at speeds up to 30 km/h and cannot overcome the laws of physics.</i>		-	S	S
<u>Lane Assist (Lane Departure Warning)</u>				
<i>A camera monitors the lane markings ahead—even in darkness—to warn the Touareg driver of an unintentional departure from their lane via haptic feedback (i.e., steering wheel vibration). Lane markings must be clearly visible for the system to work effectively. Outside weather situations may hinder the system (eg. Snow, rain, salt, etc.). The system is not able to actively correct steering due to the hydraulic power steering concept of the Touareg.</i>		-	S	S
<u>Adaptive Cruise Control</u>				
<i>The driver sets not only the desired speed, but also the desired following distance. A sensor constantly monitors the area in front of the vehicle. If another vehicle enters that area, the vehicle reduces speed to maintain a set following distance. Once the road ahead is clear, the system returns smoothly to the speed set. If the driver accelerates or brakes, automatic distance control is overridden. The system can even decelerate the vehicle to a complete stop; for example, when encountering a traffic jam. Afterward, a brief press of the accelerator pedal or pressing "Resume" on the steering wheel will start the Touareg moving forward again.</i>		-	S	S
<u>Side Assist</u>				
<i>Radar monitors the rear and sides of the vehicle to compliment the use of properly adjusted exterior side mirrors and driver shoulder checks. The system will visually warn not only of cars in the vehicle's blind spot, but also for approaching vehicles at a range of up to 50 meters.</i>		-	S	S

Fuel consumption ratings are estimates based on Natural Resources Canada's (NRCan) fuel consumption criteria and testing methods for 2017 model year vehicles and are provided for comparison purposes only. Please note that comparisons to seemingly similar vehicles pre-2015 model year will show discrepancies due to the difference in NRCan approved calculation methods for 2014 model year and older vehicles. Please refer to NRCan's Fuel Consumption Guide 2017 for estimated fuel consumption figures. Actual fuel consumption will vary based on driving conditions, driver habits and the vehicle's condition, weight carried and additional equipment.
