<b>DRIVER ASSISTANCE SYSTEMS</b>		<b>Trendline+</b>	<b>Comfortline</b>	<b>Highline</b>
Front Assist: Autonomous Emergency Braking	Front Assist uses radar to monitor the traffic immediately in front of you to sense an emergency event ahead. If a collision is imminent, the system can increase the braking force applied or apply the brakes autonomously to mitigate or avoid the collision altogether. The system can only bring the vehicle to a stop autonomously without driver intervention at speeds of up to 30 km/h.	-	S	S
Adaptive Cruise Control	The driver sets not only the desired speed, but also the desired following distance. A sensor constantly monitors the area in front of the vehicle. If another vehicle enters that area, the vehicle reduces speed to re-establish the set following distance. Once the road ahead is clear, the system returns smoothly to the speed set. If the driver accelerates or brakes, automatic distance control is overridden. The system cannot bring the	-	P	P
Lane Assist	A camera monitors the lane markings ahead—even in darkness—to steer the Passat back into the center of the driving lane after detecting an unintentional lane departure. Lane markings must be clearly visible for the system to work effectively. Weather conditions may hinder the system (including but not limited to snow, rain, or fog).	-	P	P
Park Assist	Park Assist uses the ultrasonic sensors for Park Distance Control to assist the driver in parking the Passat into parallel or perpendicular spots of sufficient size. The system can also assist the driver to exit from a	-	P	P

### ENGINE

Type	1.8 TSI, in-line 4-cylinder, TFSI		
Bore	3.25 in	82.5 mm	
Stroke	3.31 in	84.1 mm	
Displacement	110.0 in <sup>3</sup>	1,797 cm <sup>3</sup>	
Compression Ratio	9.6 : 1		
Horsepower (SAE) @ rpm	170 @ 6,200 (125 kW @ 6,200)		
Maximum torque, lbs - ft @ rpm	184 @ 1,500-4,750 rpm (250 Nm @ 1,500-4,750 rpm)		
Fuel Requirement	Regular unleaded		
Firing Order	1-3-4-2		

### ENGINE DESIGN

Arrangement	Front mounted, transverse		
Cylinder Block	Cast iron		
Crank Shaft	Cast iron, five main bearings		
Cylinder Head	Aluminum alloy, cross flow		
Valve Train	Double overhead camshaft, chain driven with automatic tensioner, four valves per cylinder, maintenance-free hydraulic lifters, variable intake timing		
Cooling System	Water cooled, water pump, cross flow radiator, double electric PWM controlled radiator fan		
Lubrication	2-stage-gear pump, pressurized, full flow with oil cooler		
Fuel / Air Supply	Fuel Straight Injection (TFSI) into cylinders, Turbo charger/intercooler		
Emissions	Tier 3, Bin 30		

### ELECTRICAL SYSTEM

Alternator - V/A	14/140		
Battery - V/Ah	12/60; located in engine compartment		

### DRIVETRAIN

Drivetrain	Front wheel drive		
	Automatic		
Transmission Gear Ratios:1	1st	4.04

### FUEL CONSUMPTION<sup>1</sup> Automatic

City L/100km	10.1
--------------	------

Highway L/100km	7.0
-----------------	-----

*Fuel consumption ratings are estimates based on Natural Resources Canada's (NRCAN) fuel consumption criteria and testing methods for 2017 model year vehicles and are provided for comparison purposes only. Please note that comparisons to seemingly similar vehicles pre-2015 model year will show discrepancies due to the difference in NRCAN approved calculation methods for 2014 model year and older vehicles. Please refer to NRCAN's Fuel Consumption Guide 2017 for estimated fuel consumption figures. Actual fuel consumption will vary based on driving conditions, driver habits and the vehicle's condition, weight carried and additional equipment.*
